Article Identification and Approval

To Accompany Each Article Submitted for Publication in
the IPN Progress Report

VOLUME _____

TITLE OF ARTICLE: _____

AUTHOR'S NAME(S)	Ext.	Section	Mail Stop or Mailing Address	Cognizant Alternate	Ext.
(1) _____	_____	_____	_____	_____	_____
(2) _____	_____	_____	_____	_____	_____
(3) _____	_____	_____	_____	_____	_____
(4) _____	_____	_____	_____	_____	_____

If only one author is listed, a cognizant alternate should be designated. The cognizant alternate may be called upon to answer editorial questions and review galley proofs in the absence of the author. Although the cognizant alternate should be technically informed regarding the article, he should not be regarded as an author for he will not be credited as such.

In the case of multiple authors, please place an asterisk before the name of the corresponding author. This author will be called upon to answer editorial questions and to review galley proofs.

JPL PROJECT & TASK:

NASA CODE:

The JPL and NASA codes are for identification only and will not be used to fund the IPN Progress Report.

WORK UNIT NAME:

NEW TECHNOLOGY INFORMATION

If this material describes a possible item of new technology, it should be reported by the author to the JPL Intellectual Property Group. New technology is any invention, discovery, innovation, or improvement, whether or not patentable. It includes scientific discoveries, scientific or technical computer programs, and new or improved products, materials, processes, machines, apparatuses, devices, fixtures, tools, etc.

_____	_____	_____	_____	_____
Referee (Signature)	Date	Group Supervisor	Section No.	Date
_____	_____	_____	_____	_____
Typed Name of Referee	Ext.	Section No.	Section Manager	Section No. Date

The referee's signature confirms that the article is technically sound and has archival value.
