Author Index, 1986

The Telecommunications and Data Acquisition Progress Report

42-85, January–March, May 15, 1986
42-86, April–June, August 15, 1986
42-87, July–September, November 15, 1986
42-88, October–December, February 15, 1987

Aguirre, S.
42-86 Phase Lock Acquisition for Sampled Data PLLs Using the Sweep Technique, pp. 95–102.
S. Aguirre, D. H. Brown, and W. J. Hurd

A Method to Dramatically Improve Subcarrier Tracking, pp. 103–110.
See W. J. Hurd.

S. Aguirre, W. J. Hurd, R. Kumar, and J. Statman

Ahlstrom, H. G.
H. G. Ahlstrom, P. S. Hames, and F. J. Menninger

42-87 Antenna Servo Control System Characterization: Rate Loop Analysis for 34-m Antenna at DSS-15, pp. 165–173.
See Nickerson, J. A.

Amorose, R. J.

Anderson, T. O.
42-86 Antenna Arraying of Voyager Telemetry Signals by Symbol Stream Combining, pp. 131–142.
See Hurd, W. J.

Andres, E. M.
See Slobin, S. D.

Armstrong, J. W.
See Brown, D. W.

Bathker, D. A.
42-86 A Prototype DSN X/S-Band Feed: Model III Development, pp. 26–32.
D. A. Bathker and H. F. Reilly

See Manshadi, F.

42-87 Design Considerations for the Beam-Waveguide Retrofit of a Ground Antenna Station, pp. 10–23.
See Veruttipong, T.
